None specified

Cedar Canyon CWMU Description

The Cedar Canyon CWMU starts above the riparian area of Lost Creek at about **5600** feet. There is a rapid increase in elevation to start with, but it turns into a gentler slope as the unit rises to about **8000** feet along the Morgan-Summit Counties border. Cedar Canyon, Black Hawk Canyon and Hay Hollow all cut this CWMU mostly in an east-west direction creating steep relief.

Nearly forth percent (40%) of the Cedar Canyon Cooperative Wildlife Management Unit (CWMU) is Inter-Mountain Basins Montane **Sagebrush Steppe** (62). Another twenty-five (25%) is Rocky Mountain **Aspen Forest and Woodland** (22). Another Shrubland that contributes significantly is the Rocky Mountain Gambel **Oak-Mixed Montane Shrubland** (41). Inter-Mountain Basins **Big Sagebrush Shrubland** (48) contributes to the Shrubland character of the Unit. Rocky Mountain **Bigtooth Maple Ravine Woodland** (23) and Colorado Plateau **Pinyon-Juniper Woodland** add to the Forest and Woodland character of the Unit.
